EDUCATION

Ho Chi Minh City University of Technology

Bachelor of Computer Science

Aug 2024 – Present

Ho Chi Minh City, Vietnam

Cumulative GPA: 3.9/4.0

PROJECTS

MERN Task Manager

GitHub Demo

React, Vite, Tailwind CSS, JavaScript, Node.js, Express.js, MongoDB

- Developed a responsive task management web application using **React**, **Vite**, and **Tailwind CSS**, supporting desktop and mobile layouts.
- Designed reusable React components for task creation, inline editing, status statistics, filtering, task cards, pagination, empty states, and user notifications.
- Integrated the frontend with a REST API using **Axios** to support asynchronous CRUD operations and synchronize UI state with backend data.
- Implemented task filtering by status and time range, client-side pagination, React Router navigation, and toast-based success and error feedback.
- Built the backend with Node.js, Express.js, MongoDB, and Mongoose to support persistent task storage and full-stack frontend-backend integration.

Personal Portfolio

GitHub Demo

React, Vite, Tailwind CSS, JavaScript, React Router, Base UI, Motion

- Developed a responsive multi-page personal portfolio using **React**, **Vite**, and **Tailwind CSS**, showcasing projects, technical skills, resume, and contact information across desktop and mobile layouts.
- Built reusable UI components with **Base UI** and **shadcn/ui**, and implemented client-side routing with **React Router** and animated page transitions using **Motion**.
- Implemented an interactive project showcase with case-insensitive search and multi-tag technology filtering, along with reusable project cards, technology badges, GitHub links, and live-demo states.
- Developed a controlled contact form with client-side validation for required fields, email format, and message length, including character counting, loading states, inline error feedback, and submission-success feedback.
- Configured an automated **GitHub Actions** workflow to install dependencies, build the Vite application, and deploy production artifacts to **GitHub Pages**.

TECHNICAL SKILLS

Frontend: React, Tailwind CSS, shadcn/Base UI, React Router

Backend: Node.js, Express.js, REST APIs, MongoDB

Programming: JavaScript, C++, Python

ADDITIONAL INFORMATION

Languages: English – IELTS 7.0

Soft Skills: Teamwork, active listening, task organization, reliability, and adaptability
